4. About Marcus T. Anthony PhD

Brief

Marcus T Anthony is a radical Australian futurist who advocates “Deep Futures”, an approach to creating ideal futures that includes not only technological and economic considerations, but incorporates deeper ecological, psychological, and spiritual concerns. He is the author of six books and scores of academic papers. Marcus T Anthony is currently lecturer in Strategic Foresight at Melbourne’s Swinburne University, and Director of MindFutures.

Detailed

“There is more to the future than flying cars and a faster internet. At the heart of the future lies the soul of humanity.” So writes Dr. Marcus T. Anthony in *Extraordinary Mind*. The sentence encapsulates the thinking of one of the few postconventional futurists in Australia. Futurists are people who study, analyse and deeply question the future. However, Australian-born Anthony is rather unusual in the Futures Studies field. While most futurists focus upon economics and technological innovation, the Hong Kong based writer and philosopher extends his thinking to far more profound realms.

Beginning from the mid-1990s, Anthony began to explore visionary worlds through contemplation, deep meditation, and emotional healing. He traveled to many parts of the world, seeking the wisdom and guidance of gifted spiritual teachers. While living in New Zealand from 1996-1999, he engaged in an intensive programme of spiritual exploration with a group of committed spiritual seekers. By the time he had left New Zealand for Taiwan, he had developed an ability to perceive and understand human consciousness at an extraordinarily deep level. This included the capacity to sense the thoughts and emotional energies of others, and to communicate with spiritual realms. Subsequently, he set about formally studying the frontiers of human intelligence, enrolling in a doctoral programme at the University of the Sunshine Coast in Queensland, Australia. During his doctoral candidature, he applied his natural intuitive gifts to develop a unique method of study, Integrated Inquiry (described in *How to Channel a PhD*, MindFutures, June 2011). Integrated inquiry combines traditional research tools with intuitive ways of knowing to locate, analyse and communicate knowledge.

In recent years Dr Anthony has become a prolific writer. He has published *Integrated Intelligence* (Sense Publishers, 2008), *Extraordinary Mind* (MindFutures, 2011), *How to Channel a PhD* (MindFutures, 2011) and *Discover Your Soul Template* (Inner Traditions, 2012); as well as scores of academic articles, and numerous newspaper, magazine and internet features.

Marcus T Anthony is currently lecturer at Swinburne University's Masters of Strategic Foresight programme in Melbourne. He is also the Director of MindFutures (www.mind-futures.com), a company specialising in books and media related to Futures Studies. Its mission is to bring greater balance to discussions, analyses and visions of the future, and to help prepare the world for the great changes which Anthony predicts will occur in science and education in the near future. Anthony's way of thinking broadens financial and technologically-dominated discourses with a consideration for deeper philosophical, psychological, and spiritual perspectives. He is an elected member of the World Futures Studies Federation, and the Darwin Project Council - a think-tank comprising many leading futurists, academics, philosophers and scientists, including triune brain theorist Paul Maclean, psychologist Mihalyi Csikszentmihalyi, systems theorist Ervin Laszlo, and feminist philosopher Rianne Eisler.

Marcus T Anthony has lived and worked in New Zealand, Taiwan, mainland China (Beijing and Sichuan), and Hong Kong. He is a proficient speaker of Mandarin Chinese, and can amuse Hong Kongers with his essential Cantonese. He now lives in Melbourne, Australia with his wife, Ren Yongping, who kindly assists him with his sometimes befuddled attempts to comprehend Chinese civilisation.

6. Suggested Interview Questions

Futures Studies

- You call yourself a “postconventional futurist”? What exactly is that?
- What is Futures Studies?
- So can you tell us what is going to happen in the future?
- How are you different from other futurists?
- You have written a lot about Deep Futures. What exactly are Deep Futures?
- What are these “money and machines” futures that you write about, and why are they not a good thing?

Integrated Intelligence

- In your articles and books you have written quite a lot about a new kind of intelligence, and call it “Integrated Intelligence”. Can you explain what that is?
- Have you developed your own Integrated Intelligence, and if so, can you tell us how you did it?
- Can people develop Integrated Intelligence, and if so, how?

The Great Mind Shift

- You have a project called *The Great Mind Shift*. Can you tell us what this “shift” is all about, and why you think it is going to happen?
- Can you tell us how to profit from this coming great mind shift?
- But surely science is going in the opposite direction to what you talk and write about - things like spiritual and mystical experience? These things have been explained away as superstition, no?
- You criticise modern science as being too “mechanistic”. What does that mean?
- Are you anti-science?
- How can we prepare for this Great Mind Shift?

Discover Your Soul Template

- In your book *Discover Your Soul Template* you criticise the New Age movement for being “delusional”, yet you make rather extraordinary claims yourself. For example, you call your semi-autobiographical novel *The Mind Reader*. Are you claiming you can read minds, and if so, aren't you being somewhat hypocritical here, if not downright delusional yourself?
- In *Discover Your Soul Template* you talk about the Soul Template. What precisely do you mean by the term “Soul Template”?
- In *Discover Your Soul Template* you talk about about creating and living your Bliss. What precisely do you mean by the term “Bliss”?

- In *Discover Your Soul Template* you claim that people use only about three per cent of their mental ability. Other people have said this kind of thing before. How did you come up with this precise figure, and how do you know that this is true?
- *Discover Your Soul Template* is full of rather incredible claims about extraordinary human abilities such as ESP, the ability to sense the future, and communication with spiritual realms. Can you really do these things yourself, and if so, do you honestly think you can teach others how to do them?
- It's all very well to say we can live our Bliss, but how do we know what our Bliss is?
- Have you discovered *your* Bliss, and if so, can you tell us what it is, and how you did it?

Mystical and spiritual

- Aren't you afraid of being ridiculed for suggesting that human beings have so-called psychic abilities like ESP and telepathy?
- You write about extraordinary experiences communicating with other minds, spirit guides, and even the dead. Have you ever thought that you might be crazy?
- You have criticised the DVD and book *The Secret*, saying that its claims are not entirely true, but then you have gone on to talk about "the real secret". What exactly is this true secret?
- Why should anybody believe that these kinds of extraordinary abilities you talk about exist?

Personal

- Do you believe people have a destiny, or do we create our own lives?
- How did you come to take such a radical approach to thinking about the future?
- What would you say is the single most significant event in your life which made you develop the idea of Deep Futures/Integrated Intelligence?

8. About *Discover Your Soul Template*

Follow your excitement and live your bliss, Joseph Campbell famously stated. But how? In *Discover Your Soul Template*, Marcus T. Anthony turns unworldly philosophy into worldly practice, letting the reader know exactly how to create and live their “Bliss” He provides fourteen specific, easy-to-use tools that anybody can use. The key to finding your Bliss is trusting your Integrated Intelligence – the in-built intuitive voice that all people have, but typically ignore.

What makes this book stand out from other spiritual and New Age texts is that it is based upon Anthony’s direct experience – his twenty-year spiritual quest, and the extraordinary cognitive abilities he developed. As he worked with advanced spiritual teachers and explored his psyche through meditative and contemplative practice “something special began to happen.” He writes:

“I started to draw in the lost pieces of my soul, the light and the darkness within. In this bonding, I began to develop acute perception. Soon I was able to draw information from past, present and future, from within and without - in an instant... This is what I call Integrated Intelligence.”

Have you ever felt that you had a greater calling, but never been able to put your finger on what it is? In *Discover Your Soul Template*, Dr Marcus T. Anthony shows that you have the incredible capacity to draw upon an infinite source of knowledge and wisdom, and use it to identify and live your true calling, or what he calls your “Bliss”. This is part of your evolution as a soul, and the collective evolution of the human oversoul. In *Discover Your Soul Template* you will learn: - The fourteen INI Tools which will enable you to activate your Integrated Intelligence and live your Bliss. Subject matters clearly explained include: What your Soul Template is, and why you need it to live your Bliss. - How to find your calling by following your excitement, and how to stay on purpose once you know what it is. - How to stand in your true power as a man or woman. - The real secret about manifestation, one the New Age won't tell you. - How spiritual seekers unconsciously sabotage their Bliss. *Discover Your Soul Template* is exciting, amusing and essential reading for anyone seeking to create the life they were meant to live.

10. Quotes from *Discover Your Soul Template*

“The Sage is that wiser part of us which can tap into what I call Integrated Intelligence – the infinite stream of wisdom which we all have, but all too rarely use. It is the Sage which can guide us on the journey to living our Bliss, if only we will listen.”

“You are a lot smarter than you think you are. There is an infinite stream of intelligence which moves through you, connecting you with all the knowledge and wisdom of the universe. I like to call this integrated intelligence (INI), and this book is about utilising this innate intelligence to create a more deeply meaningful and fulfilling life.”

“Wisdom is not exclusive to elderly wise men and women living in temples and wafting incense. It is available to all of us, anywhere, any time.”

“The present chaotic state of world economics and politics is calling us to shift to a higher state of being. An unbalanced focus upon money and power has built up the collective human ego, widening the gap between society and Spirit. We need to understand that expressing a soul purpose does not require an unbalanced focus upon materialism.”

“It is very difficult to rise above the dominant beliefs and attitudes of your culture. You really need to see things from a distance. You need to see the big picture. You are part of the evolution of the consciousness of the human race, and of the universe. You must appreciate that this is a unique moment in history, and the present is just one future that has evolved from multiple possible futures.”

“As human beings, we have an innate capacity for integrated intelligence. We can access knowledge beyond the boundaries of the individual brain. We are in a constant state of data retrieval and “transmission” with people, environment, spirit realms and the cosmos itself. Throughout history, many of the wisest of people have been able to tap into infinite wisdom to create lives of deep meaning and purpose.”

“Without the nourishment of Spirit, rationality is a desert for the human soul.”

“If you choose goals which are non-aligned with your Soul Template, you will set up an internal conflict between your ego and Spirit”

“The essence of empowerment is an unshakable belief in yourself, founded upon the conviction that your inner knowing is sound.”

“The universe is on your side. Integrated intelligence and guidance are always at your disposal. But you have to understand that at a psychic level, humanity is often against you.”

“You can develop integrated intelligence too. The only requirement is that you want to do it badly enough, and are prepared to take the required leap of faith.”

“It is in presence that the true beauty of synchronicity can be sensed and appreciated.”

“Ego agendas are a substitute for love.”

“Some gurus may not tell you that healing is an essential part of the spiritual journey. False teachers build up your ego, say that you are special, and that you can have it all. Then they ask for the cheque.”

“Ego is part of being human, and deserves all the love that every expression of the human personality requires. Ego goes with you all the way to God.”

“The spiritual journey is a healing journey. To heal it you have to feel it. That is the price you have to pay.”

“Love your fear, love your pain. It is the running away that creates most of the suffering. Surrendering will free your soul.”

“You were not put here for a specific calling. Your task is to get to know your soul and develop a vision which fits it.”

“When you discover your Bliss and set yourself a vision, you should consider the price that you will have to pay.”

“Life becomes much less of a struggle when you listen to the heart, when you tap into your intuitive intelligence”.

“The universe is only as smart as the questions you ask it, and your openness to listen.”

“There will come a time when corporations and institutions will choose to use Integrated Intelligence in their decision making. The abilities and the tools are here already.”

“All judgment robs you of presence, and of your connection with Spirit.”

“There is no savior, no escape. There is but the reality that you are being asked by Spirit to live here and now, and assume complete responsibility for your mental energy.”

“Human relationships are the perfect testing ground for Integrated Intelligence. You might make a lot of errors, but persist with it. As when learning a new language, you feel like a moron, but a whole new world opens up before you.”

“This is a pivotal moment in human consciousness evolution. We are now at a time where we can consciously make the choice to be conscious.”

“There is a constant interplay of dark and light energy around us, like a weather map with areas of high and low density circling and influencing each other’s movements.”

11. Praise For Discover Your Soul Template

“It is time for something different. It is time for change. In *Discover Your Soul Template*, Marcus T. Anthony calls you forward to embrace that difference. What is most exciting is that he shows you precisely how to do this. He shows you how to choose a life of Bliss aligned with your spirit, and the greater good of the human species... This book will appeal to those who like to see all of traditional philosophy/spirituality and progressive science given a human touch. It is highly recommended.”

Dr. Ervin Laszlo, author of *Science and the Akashic Field: An Integral Theory of Everything*; founder of the Club of Budapest and the General Evolution Research Group.

“Wow! This is very exciting! Very impressive. In thinking and writing alone, Marcus T. Anthony’s new book moves with a wisdom and confidence that has the feeling of being channeled from that higher being within us so few of us ever manage to tap into consciously, or in conscious partnership. On target and hard driving.... *Discover Your Soul Template* is a book that should be widely read. It illuminates and demystifies the mystical – no mean feat indeed! I have been greatly impressed by Dr Anthony’s academic writing on related subject matters for some years now, and I am no less impressed by this more personal volume. I heartily endorse this book, and have no hesitation in recommending it highly.”

Dr. David Loye, author of *Darwin in Love* and *Darwin’s Lost Theory*.

“Marcus Anthony has taken the theoretical elegance and sophistication of his previous book, "Integrated Intelligence" and written an easy to read and inspiring book on transmodern spirituality. I highly recommend Discover Your Soul Template to anyone looking to read a wonderful story that deepens our understanding of spirituality and the nature of intelligence.”

Professor Sohail Inayatullah, Tamkang University, Taiwan and the University of the Sunshine coast, Author/Editor of 20 books on futures thinking and strategy.

“One frequently has the sense that Marcus Anthony is addressing one directly, and this combination of down-to-earthness and dry Australian humor is unusual and welcome in a field dominated by authors who seem to relish the distance between their own exalted and enlightened conditions and the reader’s benighted ignorance. In a book which is also intended as a wake-up call this is a precious asset – Marcus Anthony has been there; he knows what the struggle is like and the fact that he’s been able to liberate himself shows that we can too. He not only describes in some detail the emotional and karmic obstacles which we bring to the struggle, but describes many practical tools which we can use to tune into our own and the Universe’s wisdom.

It’s not exactly an unknown fact that most people live most of the time in ignorance and unhappiness, despite the fact that we’re surrounded by and permeated with boundless love and joy, limitless intelligence and understanding. Yet merely stating this fact does nothing to change it – “Discover Your Soul Template” not only explains clearly and unpretentiously why it’s the case, but tells us what we can practically do about it; with a wry but loving smile on its face. Congratulations to the author – the world needed this book.”
